

# Everything's possible

After years of suffering, Célia, Rui and Joaquim can finally face the future with a new smile. See how MALO CLINIC has changed their lives.

**Célia Martins** is 38 years old and lives in Portalegre. Out of fear, Célia only went to the dentist when there was no other solution than to extract her teeth. Shame, lack of self-esteem and eating problems were just some of the difficulties that she had to deal with.

**Rui Canosa** is 47 years old and lives in Viana do Castelo. A car accident at age 21 left him paraplegic. With a life course marked by this dramatic event and all the difficulties that followed, Rui finally managed to smile again. A dream come true!

**Joaquim Veríssimo**, 43 years old and living in Montijo starred in this month's special case of support for those involved in the fires. Firefighter for 27 years, Joaquim struggled to leave behind the pain of recently losing his wife and followed his Fire Brigade in support of the fire victims. A true example of altruism, which deserves to be rewarded!
