

MALOCLINIC

THE ART OF CREATING SMILES

PREVENTION IS THE BEST SOLUTION!

Focused on making a difference among the younger ones with a didactic and constructive approach, MALO CLINIC carried out an Hygiene and Oral Health awareness campaign during the month of May in several schools from the north to the south of Portugal. The clinical teams involved in this event, imparted knowledge regarding the best oral habits and practices along with basics in dental care and its importance to health in general. Students of various age groups benefited with this valuable education. After getting multiple positive feedbacks from parents as well as teachers and seeing the great success of this campaign, MALO CLINIC will repeat it in 2020, again during the month of May! If your school is interested in these didactic events, contact us using the following email:
